	3550	[asq10_intro] Show the field ONLY if: [visit_asqver]="10"	10 Month Questionnaire9 months 0 days through 10 months 30 daysOn the following pages are questions about activities babies may do. Your baby may have already done some of the activities described here, and there may be some your baby has not begun doing yet. For each item, please fill in the circle that indicates whether your baby is doing the activity regularly, sometimes, or not yet.Important Points to Remember:Try each activity with your baby before marking a response. Make completing this questionnaire a game that is fun for you and your baby. Make sure your baby is rested and fed.	descriptive

Your baby may have already done some of the activities described here, and there may be some your baby has not begun doing yet. For each item, please fill in the circle that indicates whether your baby is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your baby before marking a response. Make completing this questionnaire a game that is fun for you and your baby. Make sure your baby is rested and fed.	descriptive

3773	[asq16_intro] Show the field ONLY if:	16 Month Questionnaire15 months 0 days through 16 months 30 daysOn the following pages are questions about activities children may do. Your child may have already done some of the activities	descriptive				

	[visit_asqver]="16"	described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed. At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.

3848	[asq18_intro] Show the field ONLY if: [visit_asqver]="18"	18 Month Questionnaire 17 months 0 days through 18 months 30 days On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed. At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

	3923	[asq20_intro] Show the field ONLY if: [visit_asqver]="20"	20 Month Questionnaire19 months 0 days through 20 months 30 daysOn the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet.Important Points to Remember:Try each activity with your child before marking a response.Make completing this questionnaire a game that is fun for you and your child.Make sure your child is rested and fed.At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

4001	[asq22_intro] Show the field ONLY if: [visit_asqver]="22"	22 Month Questionnaire 21 months 0 days through 22 months 30 days On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed. At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

	4079	[asq24_intro] Show the field ONLY if: [visit_asqver]="24"	24 Month Questionnaire 23 months 0 days through 25 months 15 days On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed. At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

	4156	[asq27_intro] Show the field ONLY if: [visit_asqver] = "27"	27 Month Questionnaire On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed. At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

	4235	[asq30_intro] Show the field ONLY if: [visit_asqver]="30"	30 Month Questionnaire28 months 16 days through 31 months 15 daysOn the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet.Important Points to Remember:Try each activity with your child before marking a response.Make completing this questionnaire a game that is fun for you and your child.Make sure your child is rested and fed.At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

4316	[asq33_intro] Show the field ONLY if: [visit_asqver]="33"	33 Month Questionnaire31 months 16 days through 34 months 15 daysOn the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet.Important Points to Remember:Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed. At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.	descriptive

4474	[asq42_intro] Show the field ONLY if: [visit_asqver]="42"	42 Month Questionnaire 39 months 16 days through 44 months 30 days On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed.	descriptive

Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Important Points to Remember: Try each activity with your child before marking a response. Make completing this questionnaire a game that is fun for you and your child. Make sure your child is rested and fed.		descriptive

Anti-cyclic citrullinated peptide (anti- CCP), IgG antibodies are present in about 69-83 percent of patients with rheumatoid arthritis (RA) and have specificities of 93-95 percent. These autoantibodies may be present in the preclinical phase of disease, are associated with future RA development, and may predict radiographic joint destruction. Patients with weak positive results should be monitored and testing repeated.**: Test performed on a sub-optimal sample per client request. Specimen is PAST STABILITY. The reference interval does not apply.	descriptive

	6611	[arup_dsdnadisp]	dsDNA Ab IgG ELISA resultsResultReference rangeFlagsDate[arup_dsdnar] IU0-24 IU[arup_dsdnaf] [arup_dsdnadrt]Special interpretive comments: [arup_dsdnacom]Standard interpretive comments: Double-Stranded DNA (dsDNA) Ab IgG ELISA: 24 IU or less = Negative; 25-30 IU = Borderline Positive; 30-60 IU = Low Positive; 60-200 IU = Positive; 201 IU or greater = Strong Positive. Positivity for anti-double stranded DNA (anti-dsDNA) IgG antibody is a diagnostic criterion of systemic lupus erythematosus (SLE). Specimens are initially screened by enzyme-linked immunosorbent assay (ELISA). If ordered as reflex (0050215), positive ELISA results (>24 IU) will be reflexed to a highly specific IFA titer (Crithidia luciliae indirect fluorescent test [CLIFT]) for confirmation. Some patients with early or inactive SLE may be positive for anti-dsDNA IgG by ELISA but negative by CLIFT. If the patient is negative by CLIFT but positive by ELISA and clinical suspicion remains, consider antinuclear antibody (ANA) testing by IFA. Additional information and recommendations for testing may be found at https://arupconsult.com/content/systemic-lupus-erythematosus .**: Test performed on a sub-optimal sample per client request.
