1	Yes							
0	No							
23	[enrl_infected]  Show the field ONLY if: [enrl_yn]="1" and [enrl_cginf]>"0"	Does the participant have a date of infection? Note: If the participant's infection is within the past 30 days (acute case), please enter an infection date for this most recent infection, even if they had a prior COVID infection. If the participant's infection was greater than 30 days ago (post-acute case), please enter an infection date for their first COVID infection. The date of infection is defined as the date that the COVID symptoms began. If the date of symptom onset is unknown, the date of infection can be based on the date of the first positive COVID test. If both the symptom onset date and the test date are unknown, the participant should provide their best estimate of the closest date possible to symptom onset. It is critical that a date is entered for all participants with an acute COVID infection within the past 30 days, in order to be correctly assigned to the acute arm of the study.	radio, Required <table border="1" style="margin-left: auto; margin-right: auto;"> <tr> <td>1</td><td>Yes</td></tr> <tr> <td>0</td><td>No</td></tr> </table>	1	Yes	0	No	Custom alignment: LV
